

Serving San José since 1916

San José Day Nursery has been involved in the tides of history for over 100 years! The Nursery has survived wars, depression, earthquakes and all the ups and downs of the economy, including the covid pandemic of 2020-2022. Our policy of staying open during these challenging times has always been carried out by an excellent staff. The protocols that have been established by the county have always helped the families who needed early education and care for their children.

Most of our families are low income and are unable to afford the cost of care for high quality centers. We provide the high-quality care they are looking for as well as offering sliding scale tuition. This cost is approximately \$225,000 each fiscal year, which makes fundraising an essential part of the Nursery's yearly planning.

The Willow Glen Lifestyles Home Tour is our largest annual fundraiser. The proceeds from this event typically covers tuition gaps for nearly 40 children who would be unable to receive the high-quality Early Learning Services that we provide. Thank you, on behalf of everyone involved, both volunteers and staff, for considering your participation and support. We invite you to come visit us at the Nursery to see for yourself the wonder that is created each-and-every day!

39th Annual Willow Glen *Lifestyles* Home Tour Saturday May 6th & Sunday May 7th, 2023
